

POLY-GROUND® Standard Kits

PG30W – Setting & Grounding Kit

This kit will fill 2.4 cubic feet of void and is designed primarily as a backfill alternative in grounding and setting poles.

This kit contains:

- 1- 5 Gal Pail “A”
- 1- 2 Gal Pail “B”
- 1- Pair of Vinyl Gloves
- 1- Mixer (not pictured)

This kit pails are shipped individually on pallets. The 5 Gal pail serves as the mixing container. Due to their large size, mixers are in a separate box.

PG15W – Grounding Kit

This kit will fill 1.2 cubic feet of void and is designed primarily as a backfill alternative in grounding and setting ground rods.

This kit contains:

- 1- 3.5 Gal Pail “A”
- 1- 1 Gal Jug “B”
- 1- Pair of Vinyl Gloves
- 1- Mixer

Both containers are placed in a box and the boxes are shipped individually on pallets. The mixers are in a separate box because it too large to fit in the box with the pail and jug.

SHIPPING INFORMATION All shipments are FOB Houston, Texas.

Full Pallet Information:

Pail Kits (“A” and “B” pails shipped on separate pallets):

PG30W Kits = 24 “A” pails per pallet and 60 “B” pails per pallet

PG15W Kits = 24 kits per pallet

We are happy to ship any quantity the customer needs.
